- Please be sure to separate your garbage into burnable, non-burnable, and large garbage items. If you do not, we may not be able to accept it.
- If you bring your garbage in a bag, please use one that allows us to see the content.
- If you bring in burnable, non-burnable, and large garbage items all at once, please load them into your vehicle in a way that allows burnable garbage to be removed first. After burnable garbage, please remove non-burnable garbage and large garbage items on your own.
- Please empty heaters and other such appliances of kerosene.
- If there are shards of glass or mirror on your furniture or any other items, please remove as many of them as possible.
- If you want to bring in scrap wood or other materials produced from home construction work you did on your own, please contact the Environmental Center (Tel.: 0586-48-5383) in advance so that we can confirm your location. However, there are limits to the amount you can bring and the number of times you can do so.
- For smooth unloading, etc. please do not bring your garbage in a vehicle larger than a 2-ton truck. If your vehicle is larger than that, please contact the Environmental Center in advance (Tel.: 0586-48-5383).
- See p. 15 for bringing in recyclables and p. 11 for bringing in the four specialized home appliances.
- Please follow the Sorting Category Table to see which items you can bring.
- We are very crowded during Golden Week, Obon, and the New Year's holidays. Please expect delays when you come.
- Please cut branches and other items generated when pruning garden trees to a length of 2 m or less and a thickness of 15 cm or less before bringing them in.
- Please cut long items such as hoses to a length of 2 m or less before bringing them in.
