

threeR: Recyclable and Garbage Sorting App

Check disposal methods and collection dates for recyclables and garbage on your smartphone

This convenient app can alert you by alarm when a garbage collection day is coming and what type it'll be, and it even works with smart speakers (if they have Amazon Alexa built in). Please install it via one of the QR codes below.

- Available in several languages (English, Chinese, Spanish, Portuguese, Tagalog, and Vietnamese)
- Information on in-depth features such as using the app with smart speakers (available in Japanese only) and more are also available on the city's website. Page ID: 1051925

For Android
(Google Play Store)

For iPhone
(App Store)

- The app is free to use (Data costs incurred are paid by the user)

Gas cylinders

Batteries

Tires

Fireproof safes

Pianos

Agricultural machinery

Fire extinguishers

How to find a collection location
Fire Extinguisher Recycle Promotion Center
Tel.: 03-5829-6773

Business-related Garbage

- Garbage generated by businesses and stores is divided into industrial waste and general business-related garbage.
- **Garbage generated by businesses cannot be disposed of at any of the city's collection areas.**
- Business operators are required to properly dispose of garbage generated by their businesses.

Industrial waste

Industrial waste cannot be processed by the city. Please request collection from a disposal company certified as an industrial waste disposal company. Disposal companies can contact the following association.

Aichi Industrial Waste Association Tel.: 052-332-0346 <https://www.aisankyou.com/>

General business-related garbage

This is garbage generated by stores, offices, etc. that is not considered industrial waste. → This includes non-recyclable shredded paper, animal and plant remains (raw garbage), etc. *Garbage from some industries may be considered industrial waste.

• Disposal method for general business-related garbage

- (1) Entrust it to a company certified to collect and transport general garbage. (Please check the city's website or contact the Waste Management Division at 0586-45-5374.)
- (2) Business operators can bring it directly to the Environmental Center. (See [p. 14](#))
